Career Objective:

A motivated fresher seeking an opportunity to apply my skills, gain practical experience, and contribute to organizational goals while continuously learning and growing. I am eager to work in a challenging environment where I can enhance my knowledge and contribute effectively to the success of the organization.

Educational Contour:

B.E COMPUTER SCIENCE AND ENGINEERING (ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING)

Vel Tech High Tech Dr. Rangarajan Dr. Sakunthala Engineering College
Y.O.P: 2026

CGPA: 8.2

HSC - STATE BOARD

Alagappa Matriculation Higher Secondary School
Y.O.P: 2022

Percentage: 54.16

SSLC - STATE BOARD

Alagappa Matriculation Higher Secondary School
Y.O.P: 2020

Percentage: 65

Technical Skills:

- **Programming Languages:** Java, Python, C++.
- **Programming Frameworks:** Sci-Kit, TensorFlow, Web design.
- **Frontend:** HTML, CSS, React.js, Js.
- **Database Management:** MySQL.
- **Applications and Tools:** Adobe Illustrator, After Effects, Figma.

Projects:

- **REAL-TIME SPEECH TRANSLATION**
→ Developing a real-time speech translation system to enable seamless multilingual communication using advanced NLP and deep learning.
- **AAIRA - ADVANCED ARTIFICIAL INTELLIGENCE FOR RESPONSIVE AUTOMATION**
→ Contributed as a team member in the development of an EEG-based smart automation system using Machine Learning and IoT.
→ The project enabled thought-based control of home devices, enhancing accessibility for elderly and specially-abled individuals.

- **AGNISAPTH – FIRE EXTINGUISHER DRONE**
 - Collaborated within a six-member team to develop a fire-extinguishing drone with heat detection and remote-control capabilities.
 - Integrated features included a camera for fire detection and a spraying mechanism for fire suppression.
- **SMART FOOTWEAR FOR THE VISUALLY IMPAIRED**
 - Designing sensor-embedded smart shoes to aid visually impaired individuals in obstacle detection and safe navigation.
- **SMART ATTENDANCE MONITORING USING RFID AND DEEP LEARNING**
 - Implementing an intelligent attendance system that combines RFID and facial recognition for secure and efficient identity verification.

Web Project:

For my college department event “Zephoria – 25”, I developed and hosted a website “www.zephoria.live”. It is available on Google and GitHub as well.

Hackathons and Workshops:

Artificial Intelligence Workshop - Indian Institute Of Technology–Madras (IIT–Madras)

Internships:

Ethical Hacking and Cyber Security, National Small Industries Corporation (NSIC), Chennai, Dec-2024

Assisted in threat identification and mitigation, conducted vulnerability assessments, and contributed to strengthening digital security frameworks

Professional Skills:

- Leadership
- Analytical Thinking
- Adaptability
- Optimistic
- Problem Solving
